

LIFT ASSIST_{LA90-390}

Assist operators to lift pneumatic hammers effortlessly

The Makinex Lift Assist, LA90-350, is a specifically designed to assist operators with the lifting of a pneumatic jackhammer. Actuating the LA90-350 with every cut allows the operator more control and ease of use while running the jackhammer.

CHALLENGES ON THE JOB?

- X** Back strain from lifting with heavy tool repeatedly
- X** Fatigued very easily
- X** Hard to maintain the right angle as you move cuts

SOLUTIONS:

- ✓** Reduced work related injuries
- ✓** Quick and easy to assemble to any 90lb pneumatic jackhammer
- ✓** Easily able to reposition the bit before breaking ground again

Weight:	9lbs
Weight with Hammer:	99lbs
Width:	3in
Height:	26in
